PICTURE Nr.1

Draw contours of your both feet and inscribe into the picture lines with length in **cm** (the parallel longest axis and the vertical shortest axis). Draw contours by pencil UPRIGHT (not diagonally).

PICTURE Nr.2 and 3

Send us circumference of instep, through sole and back to the instep, do the same with circumference to the heel (larger circumference - so called diagonal circumference)

PICTURE Nr.4

Circumference of your leg above ankle, circumference of your calf at height of 35 cm above the floor, circumference of the calf (max. size).
